Fundraising Tips

1. Become a fund raiser

It's important that you set the pace for your team by creating your own personalized page and becoming a fund raiser. Demonstrate your commitment to the cause!

2. Get the ball rolling

It's always a good idea to get your fundraising off to a good start by making the first contribution. This will make others feel more comfortable getting involved, and your progress bar will gain some color!

3. Add a personal touch: your WHY

We've put together an email template that you can use right from your fundraising page. The most important message you can add to your emails or social media is why you are participating in Hopelink Can Madness. Let your friends, clients and colleagues know why you think Hopelink's mission matters.

4. Start with your close contacts

Try sending quick personal messages to your inner circle to build momentum for your fundraising page or donation bin!

5. Continue thanking participants and updating social media

As more of your network gets behind your team and the cause, keep thanking them and make sure to share your team's progress! Try tagging people who have already donated while spreading your message.

6. Include a link to your page, and use the hashtag

Always include your team's fundraising page link when promoting the event on social media. This will make it easier for your supporters to take action and support the cause. Don't forget to use our hashtag **#HopelinkCanMadness** in your posts!
